Create Your Own Coat of Arms

Follow these rules for designing the coat of arms.

1. Partition the background with lines. You may use any of the designs pictured in the margins or create a design of your own. If you choose to design your own do not divide it into more than four sections.
2. Use a pencil to draw a coat of arms for yourself or your family. Try to include a symbol that represents your personal excellence.
3. Use colored pencils to color in your coat of arms.
